What We Do

The Sawyer County Health and Human Services Public Health Department provides services to men and woman who want to get tested for Sexually Transmitted Infections. Our Services are:

- Confidential
- Affordable
- Convenient

Our story

We can enroll you in Family Planning Only Services or Badger Care Plus, if you are eligible. If your income exceeds guidelines, we have discounted rates according to your income. Temporary Enrollment begins on the day you fill out the application. We have a computer available to complete online application for access.wi.gov.

Our Success Stories

“I never knew any thing was wrong. I just went in for an annual visit. I was tested, they called me to let me know the results and then I got the medicine.”

“ The clinic called me because my partner tested positive for Chlamydia. I was tested and given medication at the clinic.” Both clients were tested and treated by a nurse in our clinic.

- Testing
- Treating
- Educating
- Counseling

Public Health Department

The Public Health Nurses of Sawyer County want to prevent, minimize and contain the adverse effects of Sexually Transmitted Infections. They provide care to those who are tested and treated through evidenced based programs. The Nurses provide education to their clients to promote healthy lifestyles.

In 2012, a total of 1,422,976 cases of Chlamydia Trachomatis infection were reported in the USA to the Center for Disease Control.

This is the largest number of cases ever reported to CDC for any condition.

In Wisconsin there were 23,726 cases reported in 2012 or 415.4 per 100,000 population. The highest rates are in the 15-24 year olds.

In Sawyer County, there were 43 cases of Chlamydia reported in 2012.
